

# Tedlar®

## Mike's Organic Grocery in Connecticut

Mike's Organic Grocery is about community, sustainability and good food. When selecting the roof material for its new flagship store, the owner wanted his choice to offer superior performance while reflecting those same values. The company worked with Tedlar® partners Metal Alliance and Northeast Metal Supply to select their construction materials, including the finish for their aluminum roof. Tedlar® offers a unique combination of strength and durability providing lasting protection. Mike's chose a 1.5" snap lock panel in Tedlar's Matte Black due to its long warranty and lasting new appearance.

The result makes a strong visual statement standing out off the side of a busy road. Subject to changing seasons, the new store's owner will have peace of mind that it will remain beautiful, and resist fade and corrosion for many decades.

### Highlights

**Size:**

8000+ sq ft
